Christian Harold furniture is made from Oak which is a natural hardwood and is finished with oil. This has the advantage of easy care. Any marks caused by day to day use can be lightly sanded and oil reapplied to bring back the furniture to its original beauty. The company takes pride in using timber that is derived from well managed sources and aims to integrate this with sound environmental practises in furniture making and business practises.

# The Toulouse Collection

The Toulouse collection in beautiful natural Oak features a choice of 40mm and 70mm tops. It derives its name and design style from the heritage of Toulouse in the Midi Pyrenees region of France. Situated between the warmth of the Mediterranean and the beauty of the Atlantic seaboard, the furniture expresses a feeling for both, providing contemporary lines for modern living whilst embracing the city's cultural history.

Toulouse range is well made, solid but elegant and brings heart to any home - *A collection for today's lifestyle!*
